DETAILED ACTION

Claims 1, 7 and 9 are currently pending in the instant application, appear allowable over the prior art of record and have been renumbered as claims 1-3.

Applicants' amendment filed 14 September 2006 has overcome the claim objections and the 35 USC 102 rejections.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ann Pokalsky on 16 November 2006.

The application has been amended as follows:

1. Cancel claim 5.
2. Cancel claim 11.
3. Amend claim 1 by deleting the two instances of "□" found on page 3 of the amendment filed 14 September 2006 which is a printer error by applicants' and insert in its place at both instances, the symbol -- α --.

Election/Restrictions

Claims 1 and 9 are directed to an allowable product. Pursuant to the procedures set forth in MPEP § 821.04(b), claim 7 directed to the process of making or using the allowable product, previously withdrawn from consideration as a result of a restriction

Art Unit: 1626

requirement, is hereby rejoined and fully examined for patentability under 37 CFR

1.104. Claim 5 and 11 have been cancelled and have not been rejoined.

Because a claimed invention previously withdrawn from consideration under 37 CFR 1.142 has been rejoined, **the restriction requirement between groups I and (II, III and IV) as set forth in the Office action mailed on 31 May 2005 is hereby withdrawn.** In view of the withdrawal of the restriction requirement as to the rejoined inventions, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance. This invention relates to products of the formula I and methods of preparation. The novel and nonobvious aspect of this invention involves the substituent R. The closest prior art of record fails to teach or suggest applicants' instantly claimed invention as the prior art prepares compounds which correspond to R as (a) which has been cancelled from the instantly claimed invention. The prior art fails to teach or suggest R as (b) or (c) both of which as instantly claimed are substituted with OH, SH or NR₁₆R₁₇.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
